产品详情

Description

MPO Loopback is used for network, or optical link test, all 40/100G network.

The MPO Loopback which strictly complies with the RoHS, not only meets the criteria of both TIA/EIA 604-5 and IEC 61754-7, but also provides compacted spec for a test of Burn in and network component.

Features

Small / Compact Housing Design

QSFP Available

RoHS Compliant

Applications

Data Center Infrastructure

Parallel Optics

Storage Area Network and Fiber Channel

40G and 100Gbps Protocols

Specifications

Parameter	Conditions
Operation Wavelength	1310/1550nm
Attenuation Tolerance	$\pm 1\text{dB}$ (at 2-10dB), $\pm 10\%$ (at 11-20dB)
Return Loss	60dB(8 ° Polishing)
Operating Temperature	0~75
Attenuation	1~20dB(SM 1310/1550 nm)
Housing Dimension	Height 5.9 mm/Length 25.3mm/Width 16.2mm
