

高效污水处理系统

产品名称	高效污水处理系统
公司名称	扬州世纪名扬环保科技有限公司
价格	面议
规格参数	型号:SJMY-XW-25 型号:SJMY-XW-50 型号:SJMY-XW-80
公司地址	江苏省扬州市宝应县安宜工业园区金宝西路118号
联系电话	0514-88289799 18115117099

产品详情

高效污水处理系统具有占地面积省、处理污水量大、全自动化运行、泥浆自动压榨成形等优点。

生产车间产生的污水汇集到污水池中，污水泵将污水输送至高效污水处理器。在高效污水处理器中，污水通过特殊的处理结构，连续性的物理方式分离出泥浆颗粒与清水。

高效污水处理器分离出的污泥收集在高效污水处理器下部，通过泥浆泵输入全自动压滤机，进行压榨分离处理，压滤出的滤液通过管道回流至污水池，泥饼自动落至物料收集箱中。

高效污水处理器分离出的清水经过溢流槽储存在清水箱F中。清水箱中的清水通过压力管道、增压泵输送回生产车间循环使用。

High efficient sewage treatment system has an area Province, sewage treatment capacity, fully automated operation, automatic press molding and so on.

Sewage produced from workshop get toghther in a pool , sewage pump delivered sewage to the efficiently processor. In efficient sewage disposal, the waste water through a special processing structure, continuity physically separated particles of and water.

Sludge separated by efficient sewage disposal is collected in the lower part, Sludge is put in automatic filter by mud pump for pressing to the separating. The filtrate is back to the sump through the pipe, Mud block automatically fall to the material collection box.

The clean water separated from efficient processor is stored in the water tank through the overflow channel. The clean water can be transferred to workshop for reuse by pressed pipe.
