产品详情

水帘式除尘设备，使用方便；打磨、切割、铣边等生产过程中产生的粉尘被吸入设备内进行净化排放，设备采用PVC过滤材料经特殊工艺精制成型，使用过程中永不堵塞。正面吸尘区域采用水帘式设计，使得吸尘效果大大增强。采用优质离心式风机，有效降低了噪音。设备配有一键自动冲洗装置，维护简单便捷，净化效果达到95%以上。

Drencher type water dust cleaning equipment, is use friendly. The dust produced during grinding, cutting edge milling, etc. will be absorbed to the machine, after purification then release. We use the PVC filter material, after special technology, it will never been blocked during working. Positive vacuuming area using water type design, makes the dust collection effect is greatly enhanced. Use the high quality centrifugal fan, effectively reduce the noise. The equipment has one-button automatic cleaning devise. It is easy operated and the purify could reach over 95%.
