

丁二酸 99 (%) 优级品

产品名称	丁二酸 99 (%) 优级品
公司名称	安徽三信化工有限公司
价格	.00/个
规格参数	产地/厂商:安徽三信化工有限公司 含量 :99 (%) 产品等级:优级品
公司地址	安徽省池州市经济技术开发区金安工业园
联系电话	0566-2220010 13905663489

产品详情

产地/厂商 安徽三信化工有限公司 含量 99 (%)
产品等级 优级品

also called butanedioec acid, with relative molecular weight of 118.09g/mol and melting point of 185 and boiling point of 235, succinic acid is often used to produce five heterocyclic compounds, melting in water and lightly melting in alcohol. this product is an important chemical material and has comprehensive use. for instance, in medical industry it can be used to synthesize sedative, antispasmer, antiplegm, antiphogistic, anrhoter, contraception and cancer-curing medicine,etc, and to produce dyestuff, alhydresin, glass fiber, strengthening plastic, on exchange resin and pesticide etc. in chemical industry. in addition, butanedioec acid can be used to analytical reagent, food iron strengthen and clean-sprinkling additive etc. using the initiated electrical synthesized technique in home, and with high purity and low relling price, the product of our factory is the line medium of pharmacy, industrial plastic and, resin etc. this product has two series of industrial grade and refined grade.
