产品详情

It is an important part to provide the piglets a better living environment with appropriate temp and the economical piglet incubator combined with infrared heat lamp or electric heat pad is an ideal way to produce heat for piglets.

The incubator provides capacity for a maximum of 20 piglets. The temperature is variable and can be read from a digital display. The incubator is easy to clean.

| Model | Specification | | | Thickness |
|-------|---------------|-------|--------|-----------|
| | Length | Width | Height | |
| BW-Q | 1050mm | 650mm | 700mm | 3mm |
| BW-H | 1050mm | 650mm | 700mm | 2mm |

Piglet beat preservation box with high quality and environmental protection materials.No peculiar smell.Piglets will not scratch the skin.High strength, good toughness, aging resistance, stable quality, long service life.
