

1050nmSLD宽带光源

产品名称	1050nmSLD宽带光源
公司名称	上海量青光电技术有限公司
价格	1.00/台
规格参数	品牌:量青光电 型号:1050nmSLD光源 带宽:60nm
公司地址	上海市奉贤区奉城镇东街98号13幢1176室(注册地址)
联系电话	021-64778883 17317628715

产品详情

1050nmsld宽带光源

description:

the 1050nm sled broadband light source, central wavelength 1050 ± 10 nm, -3db spectrum width ? 60 nm output power 5, 10, 20 mw. other central wavelengths are available like 1270 nm, 1310 nm, etc. oem model is well available on customer's special request.

applications:

optical fiber sensing
optical fiber passive component spectrum testing
optical fiber grating, filter testing?dwdm
optical fiber measurement equipments

features:

selected wavelength
high spectral stability
broadband light source

parameters	unit	
part no.	-	lq-sled-1050-p-pw-sp
central wavelength	nm	1050±10
-3db spectral width	nm	?60
output power	mw	?5,10,20,etc
spectral density stability	db	?±0.05db/15 min
output power short-term stability	db	?±0.01db/15 min
output power long-term stability	db	?±0.03db/8 hour
operating mode	-	cw(external modulation is optional)
fiber pigtail	-	single mode 1060 fiber
output connector	-	fc/upc or fc/apc, etc
operating temperature	?	0 ~ 40
storage temperature	?	-20 ~ 70
power supply	-	+5v dc; >500ma; ?v?1%(module); ac 110/220v±10% 0hz, 20w(desk-top)
dimensions (l×w×h)	mm	90×70×19 module; 320×220×90 benchtop

remark: stability is tested at room temperature 25 ± 2 after pre-heating 30 minutes.
2: test condition: temperature variation ± 2 , cw.

1050nm sled broadband light source spectrum 10mw @1052nm (above)

1050nm sled broadband light source spectrum 20mw @1063nm (above)
