This comfortable handmade carpet is manufactured with the pure natural mulberry silk .It will glitter the different rays under the different light.And when you watch from the different optical points,it could reflect different pictures.The dynamic and the static can irradiate the ray at the same time.Moreover,this rug,combining with the air,will send out the massive oxygen.When your body closely touch this rug,you may feel your skin as slick as the young girl.The life span of this carpet is above 1000 years,and it not only manifests your wealth today,but also could be handed down from generations as a wealth treasure.

China yamei factory is one of the world's largest handmade carpet manufactures.Our factory was founded in 1972,which has 308 engineers and 2000 female workers now.Our leading products are washed persian silk carpets,handmade natural silk artistic tapestries,handmade silk carpets and natural silk&wool carpets.We have the production ability of more than 280,000 square feet each year in the handmade carpets.During more than 42 years,Yamei factory has earned several excellent honors around the world.Thus it becomes one of the most important gifts sent to foreign high ranking leaders by chinese government.
