

# 井控专用气动试压泵

产品名称	井控专用气动试压泵
公司名称	北京莱曼国际设备技术服务有限公司
价格	85000.00/套
规格参数	品牌:莱曼国际 型号:LYQ250-J
公司地址	北京市朝阳区安华里5区21号楼四层
联系电话	010-89595857 18664729464

## 产品详情

### 井控专用气动试压装置

Pneumatic Pressure Test Equipment Dedicated for oilfield

气动试压装置广泛适用于各种连接件，阀体，软管，硬管，压力容器等高压（超高压）容器和设备的耐压以及密封件实验和检测，尤其适合油气井钻采工程使用的井口防喷设备以及连接管汇，阀件的检测，同时也能广泛适用于科研，检测部门作为检验工具。

Pneumatic pressure test device is widely applicable to pressure and leakage tests and inspections of various connectors, valves, hoses, hard pipes, pressure vessels and high-pressure (UHP) pressure vessels and equipment, particularly to the pressure test of well top blowout preventer equipment and connecting manifold and valve fittings for oil drilling and recovery in gas/ oil fields. it can also be widely used by scientific research and inspection department as a detection tool.

主要特点如下：

The main characteristics are as follows:

结构先进，操作简单，移动灵活，维修方便。

主要零部件采用进口组件，安全可靠。

双泵双控功能可以进行高低压自由切换。

可配常规电子式记录仪，高精度圆盘记录仪，高精度电脑式记录仪等。

Advanced structure,simple operation,mobility and easy maintenance.

Imported assemblies for main parts which are safe and reliable.

Dual-pump dual-control functions allow automatic switch between high and low pressures.

Can be equipped with conventional electronic recorder, high-precision disk recorder, high precision digital type main recorder, etc.
