

低压补偿柜WTB电气控制柜低压并联电容器成套设备

产品名称	低压补偿柜WTB电气控制柜低压并联电容器成套设备
公司名称	江苏安琪尔自控技术有限公司
价格	80000.00/套
规格参数	品牌:安琪尔 型号:WTB 产地:江苏
公司地址	江苏省无锡市宜兴环科园绿园路489号
联系电话	0510-87836016

产品详情

????????????

WTB??
 ???JB7113-1993????????????????GB7251-1997????????????
 ???

WTB series low voltage reactive power compensation ark adopts high power allows contactless switching on-off switch or special contactor, capacitance can according to the power grid voltage and reactive power current situation, by the controller in real time and dynamic analysis, the zero judgment , no impact on the rapid into parallel capacitor group,with power grid reative power compensation, achieve the goal of energy conservation and loss reducion.perform JB7113-1993?Low voltage parallel capacitor devices??GB7251-1997?Low voltage complete sets of equipment in parallel Such as the standard?

0.4KV?50HZ?????
 ?????

Scope of application. Suitable for 0.4kV, 50Hz power supply and distribution system for power factor compensation, also applies to asynchronous motor and transformer and other perceptual load power factor compensation of the spot, to achieve automatic power factor adjustment, reduce loss of reactive power and voltage stability of power grid. the purpose of improving the quality of power supply.
