The main technical indicators

Installation dimensions: 200 \* 151 \* 61.5 mm

Reading and writing time: 0.3 seconds or less

Display: LCD display

Shell material: engineering plastic

Card read distance: 0 ~ 50 mm

Operating frequency: 13.56 MHz

Working voltage: DC12V, 24 v

Dynamic power consumption: static: 10 or less W: 15 W or less

Working temperature: - 30 ~ 60

Storage temperature: - 35 ~ 75

Communication interface: USB/GPRS/CDMA/PS2

Light hint: red, green leds

Tip: sound buzzer/human voice

Working pattern: single mode, network (GPRS/CDMA)

Data capacity: single charging machine store 270000 bar detail data \ GPRS storage article infinite detail records

Hairpin capacity: 91.88 million

Blacklist: 91.88 million (with a computer via usb download)

Apply card types: CPU card and compatible Mifare 1 card series,
