

流淌型双组份聚硫密封胶

产品名称	流淌型双组份聚硫密封胶
公司名称	衡水明兴工程橡胶制品有限公司
价格	1.00/千克
规格参数	品牌:明兴 型号:PJ321 产地:衡水
公司地址	河北省衡水市武邑县经济开发区河钢路梦想中心10-1 (注册地址)
联系电话	15732837812 15732837812

产品详情

流淌型双组份聚硫密封胶现货供应

双组份聚硫密封胶、AB双组份聚硫密封胶

Two component polysulfide sealant and AB two-component polysulfide sealant

密封胶，聚硫密封胶，聚硫建筑密封胶，我公司可根据工程需要调配出各种颜色的聚硫密封胶，聚硫建筑密封膏，双组份聚硫密封胶，PG-321双组份聚硫密封胶，双组份聚硫密封膏，无毒型双组份聚硫密封胶，无毒双组份聚硫密封膏，流淌型双组份聚硫密封胶，流淌型双组份聚硫密封膏，聚硫建筑密封胶，遇水膨胀密封胶，双组份聚氨酯密封胶，流淌型聚氨酯密封胶，单组份聚氨酯密封胶，遇水膨胀止水胶。

Sealant, polysulfide sealant, polysulfide sealant, our company can according to the need of the project the deployment of a variety of colors of the polysulfide sealant, polysulfide sealant and two-component polysulfide sealant, PG-321 two-component polysulfide sealant and two-component polysulfide sealant, non-toxic type two-component polysulfide sealant. Non-toxic two-component polysulfide sealant, flowing type two-component polysulfide sealant, flowing type two-component polysulfide sealant, polysulfide sealant, water swellable sealant, polyurethane sealant, flowing polyurethane sealant, polyurethane sealing glue, water swellable rubber sealing.

我公司生产的双组聚硫密封胶也叫做AB胶，为双组份室温固化型密封剂，其中A组为白色膏体聚硫胶，B组为黑色膏体固化剂，每组A+B为5公斤包装，重量比为10：1，也就是说每组中A组重量为4.54公斤，B组重量为0.46公斤。每纸箱包装为5组，25公斤/箱。客户可根据使用量来酌量订购！

Two groups of polysulfide sealant produced by our company is also called AB, two-component room temperature curing type sealant, which A group of white paste polysulfide rubber, B group for the black paste curing agent, each A+B is 5 kg, weight ratio of 10:1, that is to say the A group in weight of 4.54 kg, group B weight of 0.46 kg. Each carton

is packed in 5 sets, 25 kg / carton. Customers can according to the usage of discretionary order!

双组份聚硫密封胶的应用范围：虽然双组份聚硫密封胶的价格较贵，应用受到一定的限制，但是由于它有各种优良的物理化学性能，所以在各种大型工程上均得到广泛应用。

The scope of application of two-component polysulfide sealant: Although two-component polysulfide sealant is expensive, the application subject to certain restrictions, but because it has a variety of excellent physical and chemical properties, so it is widely used in various large projects.

1、建筑业：大型建筑屋顶的密封，地下室伸缩缝

1: Construction: large building roof seal, basement expansion joints

2、水利工程：南水北调工程，西江引水工程

2, water conservancy project: the south to North Water Diversion Project, the Xijiang River Diversion Project

3、机场道路：济南机场，北京机场。

3, Airport Road: Ji'nan airport, Beijing airport.

4、污水处理厂：据不完全统计国内90%的污水处理厂伸缩缝都是采用双组份聚硫密封胶密封的。

4, sewage treatment plants: according to incomplete statistics, 90% of the domestic sewage treatment plant expansion joints are sealed with two components polysulfide sealant.

5、地铁及隧道工程：北京地铁防水工程、天安门车站的顶板都是用双组份聚硫密封胶密封的。

5, the subway and tunnel works: Beijing subway waterproofing works, Tiananmen east station roof are sealed with two components polysulfide sealant.

6、航天航空业：飞机油箱、座舱的密封(军工产品)。

6, aerospace industry: aircraft fuel tanks, cabin seals (military products).

7、汽车工业：汽车门的防震密封。

7. Automobile industry: shockproof sealing of automobile door.

8、石油化工：汽、煤、柴各种燃油的贮油罐的防腐密封。化工产品贮槽的密封，如焦作化电集团聚合氯化铝车间的结晶贮池就是我公司密封胶，长期处在80 左右和酸性环境中使用，至今已有半以上未发现有任何渗漏现象。

8, petrochemical: steam, coal, firewood, all kinds of fuel oil storage tanks anti-corrosion sealing. The chemical seal product storage tank, such as the Jiaozuo electric group of poly aluminum chloride crystallization workshop storage pool is my company in the long-term use of sealants, 80 DEG C and the acidic environment, has been more than half a year did not find any leakage phenomenon.

9、电子电器工业：如冰箱、冰柜的玻璃门。

9, electrical and electronic industry: such as refrigerators, freezers glass doors.

遇水膨胀止水胶通用名称：单组份聚氨酯膨胀密封胶、水膨胀密封胶、缓膨胀型止水胶、遇水膨胀止水胶

产品介绍：遇水膨胀密封胶是我公司自主研发的一种单组份遇水膨胀、湿气固化、弹性密封胶。它以聚氨酯预聚体为基础、含有特殊接枝技术的脲烷膏状体，固化成形后具有遇水体积膨胀和弹性密封止水的双重密封止水机理。该产品主要适用于工业与民用建筑地下工程、市政隧道、防护工程、山岭及水底隧道、地下铁道、污水处理池等工程的施工缝（含后浇带）、变形缝和预埋构件的防水，以及既有工程的渗漏水治理。

产品特性：止水效果好：具有橡胶的弹性止水和遇水后自身体积膨胀密封的双重止水机理，*大抗水压 1.5Mpa耐久性强、质量变化率低：PJ遇水膨胀密封胶中含有特殊接枝技术的脲烷联结链，在长期使用期间不会造成膨胀元流失，在20℃温度下，理论为100%施工便捷：

单组份、膏状物。可使用标准嵌缝胶施工枪或腻子刀嵌缝施工粘 结 性 好：能牢固地粘结在混凝土等基础表面，对基础面含水率要求较低，潮湿亦可牢固粘结科技环保：具有良好的耐化学品性能：可以耐盐酸、海水、碳酸钠、氢氧化钾等化学介质；可直接使用于饮用水工程，安 全、无毒，属环保型产品。性价比好：性能优于传统的施工缝防水材料如钢边橡胶止水带或止水条，价格适中。
