

实验室辊式干式磁选机滚筒强磁皮带设备配件技术

产品名称	实验室辊式干式磁选机滚筒强磁皮带设备配件技术
公司名称	石城绿洲选矿设备制造有限公司
价格	16800.00/台
规格参数	
公司地址	江西省赣州市石城县琴江镇温坊工业园
联系电话	18079781239

产品详情

实验辊式干法强磁选机Lab Roll Dry Magnetic Separator

实验辊式干法强磁选机用于干式分选弱或强磁性矿物,机器采用双工作面闭合磁路,由励磁系统,传动机械给矿系统及产品清扫收集系统所组成,电磁振动,给矿器将矿物给入分选区,通过控制激磁电流大小,使矿物通过磁隙时自动分成磁性物和非磁性物排出机外,达到分选效果Roller dry magnetic separation machine applicable to the metallurgical, geological units and geological team, building materials, such as scientific research experiments, weak or strong magnetic mineral dry separation, the machine adopts double face closed magnetic circuit, composed of excitation system, mechanical drive feed system and product cleaning of collection system, electromagnetic vibration, feed device will give into the mineral district, by controlling the size of exciting current, make the mineral by magnetic gap automatically divided into magnetic material and non-magnetic material discharge outside, achieve separation effect

型号规格model	单位Unit	LZCG120
磁辊尺寸roll size	mm	120 × (30+30)双面 Double
磁场强度intensity	高斯GS	5000-14000可调adjustable
磁辊转速rotating speed	r/min	55
磁极间隙working gap	mm	4、6、8可调 adjustable
处理量capacity	kg/h	5-25
给矿粒度separating size	mm	0-5
功率power	kw	0.5
外形尺寸dimensions	mm	360 × 450 × 460
总质量weight	kg	75
