

压力罐 TY-01-1L 黑色

产品名称	压力罐 TY-01-1L 黑色
公司名称	上海拜希贸易有限公司
价格	18.00/件
规格参数	品牌:德志 型号:TY-01-1L 黑色 产地:浙江台州
公司地址	上海市金山区朱泾镇南横街4号4幢1365室C座
联系电话	021-57813120 18117515693

产品详情

一、公司简介

Taizhou Tianyang Electrical co.,LTD. Is located in Shangma industrial Zone,Shitang Town,Wenling City,Zhejiang Province,covering an area of 15,000 square meters.Our Company has over 30 years experience in mold design and exploitation. “ DEZHI ” and “ AQUALEADER ” are our proprietary brand of our company.We have produced pressure tank for more than 20 years.Available volumes range from 0.5 to 1500 liters.Our products are applied to pump systems .Our products are exported to numerous overseas clients.We can custom design and manufacture products according to client-supplied requirements.

We adhere to the business philosophy ” Credibility,Quality and service ” ,our scientific management is based on the domestic market, but facing to the world.Warmly welcome customers both domestic and from abroad.We sincerely hope to cooperate and develop together to create a better future.

Taizhou Tianyang Electrical Co.,Ltd. Is always your most loyal partner.

台州天扬机电有限公司 位于浙江省台州市温岭石塘上马工业区，占地面积15000平方米。公司拥有超过30年的模具设计和开发的经验，“德志”和“AQUALEADER”是我们公司的专有品牌。我们对压力罐有20年的生产经验，产品型号全面，从0.5L到1500L，工作压力从4bar到25bar。产品适用于热泵系统，供热系统，锅炉系统，高太阳能系统和消防系统。并且远销到欧洲，东南亚，北美，南美，中东等。我们可以设计，也可以根据客户提供的样品或图纸加以生产和加工产品。我们始终坚持的经营理念“信誉第一，高品质的产品，最好的服务”。以科学的管理，立足国内，面向世界，欢迎国内和国外客户来我司参观洽谈。

我们真诚希望合作，共同发展，共同创造一个美好的未来。

台州天扬机电有限公司永远是您最忠实的伙伴。

二、产品使用范围

Hydro-DEZHI : is a line of compact expansion tanks for pumps,potable water,with a fixed potable water butyl membrane.These tanks are made of carbon steel without welding that eliminates any sharp cutting edges inside the tank.The shape of the membrane is designed to avoid any water stagnation and therefore the growth of any bacteria.

These tanks are used with water booster system,pumps and as anti-water hammer.

Hydro-DEZHI定压罐适用于泵、饮用水，有一个固定的饮用水丁基膜。这些定压罐是由碳钢制成。膜被设计为了避免水在罐中停滞而造成任何细菌的生长。

定压罐：用于定压系统、水泵、防水锤等。

Water-DEZHI: with a replaceable membrane. This line is ideal for every modern installation and can be applied to any type of pump. The real volume of the pressure vessel is much greater than normal that of normal tanks of the same dimension with smaller dimensions. A compressor is not necessary since an air cushion, separated from the water by the membrane, maintains a constant pressure in the tank. These tanks can also be provided with stainless steel flanges.

These tanks for water booster system ,pumps, potable water storage.

Extra-DEZHI定压罐可更换皮囊。这种定压罐适用于现代安装，并且适用于各种水泵的应用。它的实际有效容积比平常的压力罐更大。膨胀罐可以长期保持压力，在系统中发挥作用。这种膨胀罐可以更换不锈钢法兰。

定压罐：用于定压系统、水泵、饮用水储存、食品工业等。

三、产品优势

Extra-DEZHI: is ideal for every modern installation These tanks equip with butyl membrane, stainless steel flange (fittings).

These Expansion vessel for potable water use, hot potable water, heating, boilers, water hammer arrester, pumps.

Extra-DEZHI膨胀罐适用于现代安装，配备丁基橡胶和不锈钢的法兰。

这种膨胀罐适用于饮用水使用、热饮用水、加热、锅炉、谁锤防护、水泵等。

Inox-DEZHI: are entirely made of stainless. They are especially used for systems that produce sanitary hot water produced by a boiler or from plate heat exchangers. They are excellent choices for situations that require high hygienic standards and a product life time that is practically limitless. The membrane is absolutely non-toxic and potable

drinking an

d food grade. This model of tanks is particularly useful for anti-water hammer effecting water systems, preventing vibrations or noises. They can also be used with reduced flow pumps.

Inox-DEZHI完全是不锈钢做的。他们尤其适用于系统锅炉、板式换热器的卫生热水。对于高卫生标准完全适用，而且产品生命时间几乎是无限的。压力罐还可以用于预防水锤减少噪声。

Ultra-DEZHI with butyl membrane are absolutely non-toxic an potable drinking. This model of tanks, also for their reduced volumes, are replaceable membrane pressure tanks for fire protection systems and water pressurizing systems.

Ultra-DEZHI采用丁基膜是绝对无毒和适用于饮用水。

这种膨胀罐容积利用率高，采用可更换的膜，压力罐用于防火系统和水密封系统。
