

供应日本宇部UBE顺丁橡胶 高耐磨丁二烯橡胶BR150L

产品名称	供应日本宇部UBE顺丁橡胶 高耐磨丁二烯橡胶BR150L
公司名称	东莞拓凯贸易有限公司
价格	14000.00/吨
规格参数	品牌:UBE 型号:BR150L 产地:日本
公司地址	东莞市南城街道莞太路27号南供大厦518
联系电话	0769-22882205 13712996205

产品详情

供应日本宇部UBE顺丁橡胶 丁二烯橡胶BR150L

东莞拓凯贸易有限公司长期大量供应日本宇部UBE BR150/150L/VCR617等顺丁橡胶，欢迎来电咨询。

UBEPOL BR? (high-cis BR)UBEPOL BR? has attractive grades with superior physical properties such as abrasion resistance, rebound, tensile strength, heat build up, and grades with excellent processability such as mixing, roll banding, extrusion.

UBEPOL VCR? (composite of rubber and resin)UBEPOL VCR? consists of high-cis BR and high-crystalline syndiotactic polybutadiene resin which is a special type of polymer alloy.UBEPOL VCR? can contribute to produce various advantages;

to increase hardness, modulus of rubber product without adding filler.

to reduce the volume or weight of rubber product by utilizing its reinforcing effect.

to improve extrusion properties (extrusion output and dimensional stability) and roll mill shrinkage.

The Features of UBEPOL BR? and UBEPOL VCR? for Rubber Applications

Product nameMooneyviscosity(ML1+4, 100 ° C)Cis-1,4content(wt%)Characteristics

UBEPOL BR?	150	43	98	Standard grade.
	150B	40	97	Superior balance of processability and physical properties. High branching grade. Superior processability.
	130B	29	96	Good open roll mill processability under high loading recipe Low Mooney viscosity type of 150B. Superior processability.
	150L	43	98	Most suitable for high loading of carbon black. Low branching grade. Superior physical properties; Excellent abrasion resistance, resilience and heat build-up.
