

# 混凝土检查井模具 预制混凝土检查井模具规格

产品名称	混凝土检查井模具 预制混凝土检查井模具规格
公司名称	保定市清苑区永久模具机械加工厂
价格	50.00/个
规格参数	品牌:永久模具 型号:常规 产地:保定
公司地址	河北省保定市清苑区阎庄乡南阎庄村（经营场所）
联系电话	0312-6793280 15233728688

## 产品详情

### 混凝土检查井模具 预制混凝土检查井模具规格

河北保定永久建材模具机械厂，——TEL：15233728688（微信同步）QQ：240919606，混凝土检查井模具的主要特点是表面光滑,漂亮的外观,模具费也让检查轴模具发展快速,检查轴模具质量好,耐酸碱耐腐蚀,使用寿命长,组件由热塑性塑料注塑,符合相关的国家标准,是模具的发展的关键。安全环保、密封好,产品有一定的防渗效果,并获得高密度塑料模具材料,可以回收使用后,按照可持续发展的方向。混凝土检查井模具具有一定的抗压能力,可有效地防止事故的地面沉降,施工周期短,适合客户使用大量的工程。检查井排水效率,污垢不易,减少堵塞的可能性,和重量轻,目前市场的主要产品。

The main characteristics of the concrete check well die are smooth surface, beautiful appearance, mold fee also make the inspection shaft die development fast, check shaft die quality well, acid alkali resistance corrosion, long service life, components by thermoplastic plastic injection, conform to the relevant national standards, is the key to the development of the mold. It is safe, environmentally friendly and well sealed. The product has certain impervious effect and gets high-density plastic mold materials, which can be recycled and used in accordance with the direction of sustainable development. The concrete inspection well model has certain compression capacity, it can effectively prevent the accident land subsidence, and the construction period is short, which is suitable for customers to use a lot of projects. It is easy to check the drainage efficiency, dirt is not easy, reduce the possibility of clogging, and light weight, the main products of the market at present.
