

# 挡土墙模具使用方法指南

产品名称	挡土墙模具使用方法指南
公司名称	保定市清苑区永久模具机械加工厂
价格	50.00/个
规格参数	品牌:永久模具 型号:常规 产地:保定
公司地址	河北省保定市清苑区阎庄乡南阎庄村（经营场所）
联系电话	0312-6793280 15233728688

## 产品详情

### 挡土墙模具使用方法指南

河北保定永久建材模具机械厂，——TEL：15233728688（微信同步）QQ：240919606，挡土墙模具主要用于高速上，挡土墙模具的生产与应用类似于围墙，挡土墙主要用于山体的底部，防止下雨天气山体的坍塌，防止出现山体滑坡的现象。所谓水泥地沟指的是为能更好的对屋面雨水或地面散水进行排放时，所修筑的排水沟或者使用在电缆、管道铺设。挡土墙模具的品质体现于模具的质量，质量取决于模具的原材料，选用一等原料加工模具，禁止采取再生料加工，原料生产的护坡砖模具质量有保障。

Retaining wall mold is mainly used in high speed, the production and application of retaining wall die is similar to the wall, retaining wall is mainly used in the bottom of the mountain, preventing the collapse of rain weather and preventing the occurrence of landslide. The so-called cement trench refers to the construction of drainage ditches or the laying of cables or pipes for better drainage of roof rainwater or ground water. The quality of the retaining wall die is reflected in the quality of the mold. The quality of the mold is determined by the raw material of the mold. The first class raw material is used to process the mold, and the regenerative material is forbidden to be processed. The quality of the slope brick mould is guaranteed.
