范文展示

Well, I would like to share with you a park where I usually hang out in my childhood. The park witnessed my pleasant and cozy time and I treasure it as diamonds. In the past, you could always see beautiful pictures like grass blowing gently in the summer breeze, dogs running to catch Frisbees, kids laughing and playing, gentle breezes blowing thru your hair as you sit under a shade tree. In a word, it was just an amazing place for people to kill time.

However, now the park is run-down due to the limitation of financial aid. Most public facilities are old fashioned and lack of essential maintenance, besides, the trees and flowers are in urgent need to be cared and, you know, most of them are cut in the chilly-freezing winter, whereas nobody is in charge of it. Worse case is that people who visit it always neglect the preservation of its surrounding environment, leading to the fact that the river flowing through the park is heavily polluted, with bottles or plastic bags floating on the surface.

There are several measures the government and citizens should take to make the park a better place, I suppose. Firstly, the government could make effort to upgrade the public facilities and deal with the heavily polluted water. What ' s more, citizens are also responsible for the conservation of the environment. It is imperative for individuals to know about the importance of the environment to our personal life —— that only by living in a cosy environment, could individuals truly improve the quality of life. Lastly, I have to mention that monitors and guards are also needed to ensure everything in order in the park. I do hope that the beautiful park in my memory could return one day, with the effort of government and the improvement of people ' s environmental awareness.
