福建预制空箱砌块挡土墙模具

永久建材模具机械加工厂——TEL：15233728688（微信同步）QQ：240919606，

空箱砌块挡土墙模具适用于：河道、池塘、鱼塘等地方使用，水泥件为空心、四周带孔，将水泥件安装于水面以下，空心箱体内的缝隙为鱼虾提供生存、繁衍空间，让水更清，水位线上可填土载重植物。采用进口ATR371硅胶高科技独特新型技术及设备制作成的模具，内面线条流畅、纹路清晰、模具质地软容易脱模、永不变形、纹理细腻、耐高温、耐腐蚀、耐酸碱、不膨胀、收缩率好、拉力及弹力好、抗撕裂度强、不仅让你的产品漂亮、依然很柔软。

The mold for the empty box block retaining wall is suitable for the use of the river, pond, fish pond and other places. The cement parts are hollow and surrounded by holes. The cement parts are installed below the surface of the water. The cracks in the hollow box provide the living and reproduction space for the fish and shrimp, make the water clear, and fill the soil on the water level line. The mold made of imported ATR371 silicone high tech new technology and equipment, with smooth inside line, clear pattern, soft and easy mold release, never deformation, fine texture, high temperature resistance, corrosion resistance, acid and alkali, no expansion, good shrinkage, good tensile and elastic strength, strong tearing resistance, not only make you produce. The product is beautiful and still soft.
