

抽屉除铁器，不锈钢除铁器，气动除铁器

产品名称	抽屉除铁器，不锈钢除铁器，气动除铁器
公司名称	慈溪市骏凯磁业有限公司
价格	6000.00/个
规格参数	
公司地址	浙江慈溪龙山镇西门外村龙瑞路
联系电话	0574-55848832 15705844183

产品详情

抽屉除铁器 Magnetic Drawer

抽屉除铁器用于清除粉状、片状、颗粒状等原料中的铁杂质，广泛适用于陶瓷、电力、矿业、塑料、化工、橡胶、制药、食品、环保、颜料、染料、电子、冶金等行业。我们的产品外部框架采用优质304不锈钢和内部的圆形磁棒组成抽屉。

精心设计的磁棒磁路分布使磁棒之间的空隙中磁场强度达到最大，当物料从顶部进料垂直落下时经过磁棒区域时里头的铁杂质就会被磁化，从而牢牢的吸附在磁棒上。

我们的抽屉除铁器带有各种形状的法兰，能方便的安装在圆形的输送管和方型的进料槽上，为客户提供轻松，简便，独到的服务。

Drawer Magnets are ideal for removal of fine iron and paramagnetic contamination from a range of dry free flowing products such as sugar, grain, tea, etc. They are totally constructed of 304 stainless steel, consisted of a row or most commonly rows of round magnetic tubes that are assembled into drawers.

The magnetic bars emit high magnetic field across the gaps between them . As material flows into the top of the housing, it is forced to ascade in a zig-zag pattern from row to row over the magnetic tube,this ensures maximum tramp metal capture capability since the product comes in directly and repeat contact with a magnet as it travels through the housing.

Housings are available for both square chutes and round pipelines and are flanged to suit each customers requirement for ease of installation
