

磁力架，不锈钢除铁器，气动除铁器

产品名称	磁力架，不锈钢除铁器，气动除铁器
公司名称	慈溪市骏凯磁业有限公司
价格	800.00/个
规格参数	
公司地址	浙江慈溪龙山镇西门外村龙瑞路
联系电话	0574-55848832 15705844183

产品详情

磁力架Magnetic Grate

主要特性

磁力架安装有外形美观，合理分布的磁棒，能提供高强度的磁场吸引住流动物料中的铁粉末，铁屑，和其他带磁性小片金属。高档不锈钢无缝管和外框通过工人熟练的焊接形成一个结实的整体。可以安装到生产流水线上，也可以简单的搁在料斗，物料箱里，并且能够轻松的取出和清洗。我们的磁力架采用高级材料，表面抗腐蚀，完全可达到食品甚至药品的清洁级别。我们的磁力架通常是用直径25mm磁棒，按50mm的中心间距平行排列。

General description:

Magnetic Grate provide a properly configured, high-density magnetic field to trap and hold ferrous fines, fragments, and small metal objects. Stainless steel tubing and frames are welded into strong, integral units. They can be installed – or simply laid – inside hoppers, housings, and bins – and easily removed for cleaning. Grates are built for low-abrasion applications. Standard magnetic grates feature 25mm. diameter round bars filled with either high grade Ceramic or Rare Earth Magnets, arrayed on 50mm. centers and welded into grid configurations.

N型号磁力架

最高工作温度和表面磁感应强度跟磁棒一样。

N style: SWMAG Standard Grate

The character like Maximum Operating Temperature and Magnetic strength are the same as the magnetic bars.
