Cascade Pumps

Cascade Pump Company manufactures full lines of axial flow and mixed flow pumping equipment. Two axial flow lines cover a range of flow from 400 to 200,000 gallons per minute at heads up to 30 feet per stage. Three mixed flow lines cover a range of flow from 500 to 100,000 gallons per minute at heads up to 70 feet per stage. Pumps can be built with multiple stages to increase head range.
