

# 水泥检查井模具 检查井钢模具 坚固耐用 不变形

产品名称	水泥检查井模具 检查井钢模具 坚固耐用 不变形
公司名称	保定市飞皇模具制造有限公司
价格	.00/套
规格参数	大进模具:大进模具 齐全:齐全 保定:保定
公司地址	保定市北市区东金庄乡后辛庄村村西
联系电话	19933355533

## 产品详情

保定市大进模具厂专业生产水泥检查井模具、水泥污水井模具、水泥雨水井模具、观察井模具、电力检查井模具、消防井模具、饮水井模具等。

水泥检查井模具采用4mm厚度钢板经过裁剪、焊接成型，组合式结构，操作方便，生产工艺及其简单。

水泥检查井模具常规尺寸：直径70cm、100cm、120cm、125cm、高150cm。

水泥检查井模具结构组成部分包括内外模、连接孔、井盖模具、底座模具、公母槽模具（可用可不用）。

水泥检查井模具用途：市政、小区、工业、企业、民用等建筑工程。

大进模具厂对水泥检查井模具深有研究，所生产的模具销往全国各地，厂家负责运输到指定地点，非常方便，想了解更多详情，请随时联系！

Baoding Dajin Mold Factory specializes in the production of cement inspection well mold, cement sewage well mold, cement rain well mold, observation well mold, electric inspection well mold, fire well mold, drinking well mold and so on.

Cement inspection well mold adopts 4mm thickness steel sheet through cutting, welding forming, combined

structure, easy operation, production process and its simple.

Conventional dimensions of cement inspection wells: diameter 70cm, 100cm, 120cm, 125cm and high 150cm.

The mold structure of cement inspection wells consists of internal and external molds, connecting holes, well cover molds, base molds, notch molds (available or not).

Mold for cement inspection wells: municipal, residential, industrial, enterprise, civil and other construction projects.

Dajin Mould Factory has a deep research on the molds for cement inspection wells. The molds are sold all over the country. The manufacturers are responsible for transporting them to the designated places. It is very convenient. For more details, please feel free to contact us.
