

乐泰ESP108胶 耐高温esp108

产品名称	乐泰ESP108胶 耐高温esp108
公司名称	上海环央化工科技有限公司
价格	.00/个
规格参数	
公司地址	上海市崇明区长兴镇潘园公路1800号3号楼20975室（上海泰和经济发展区）（注册地址）
联系电话	18512165767

产品详情

Loctite ESP108 is a paste adhesive which flows like solder when cured. It is designed to provide maximum resistance to impact, shear, cleavage and tensile loads.

特征Features

耐久性，耐化学性和耐高温性能极好。

ESP108将粘结各种表面，包括油性钢，被粘物本身的强度限制其性能。

在许多应用中，它可以代替传统的固定技术，提供增强的外观和更大的设计灵活性。

The durability, chemical resistance and high temperature performance are extremely good.

ESP108 will bond to a wide variety of surfaces, including oily steel, and performance is usually limited by the strength of the adherends themselves.

In many applications it can replace traditional fixing techniques to give enhanced appearance and greater design flexibility.
