产品详情

用途/USAGE

UV激光打孔机适用于柔性板(FPC)打通孔、盲孔;可用于覆盖膜(CVL)、柔性板(FPC)和软硬结合板(RF)等切割。

UV laser drilling machine is suitable for flexible board (FPC) through holes, blind holes; can be used for cover film (CVL), flexible board (FPC) and

soft and hard bonded board (RF) cutting.

特征/CHARACTERISTICS

飞行钻孔;

Flight drilling

高速高智能;

High speed and high intelligence.

软件权限分三级管理,维护与管理更简易安全;

Software authority is divided into three levels of management, maintenance and management is more easier and safer

强大的日记功能,可适时的记录机台的过程;

Strong function to daily record, all working procedure is saved.

仅用于通孔加工,性价比高;

Only drilling through holes, high cost-perfomance rate,

采用现金的飞行钻孔技术,大大提高加工品质的效率;

Advanced flying drilling technology to impove drill effiency and quality.

可定制RTR自动上下料系统;

Customizable RTR automatic loading and unloading system.
