

PPA AT-1002 HS阿莫科

| | |
|------|-----------------------------|
| 产品名称 | PPA AT-1002 HS阿莫科 |
| 公司名称 | 东莞市晶宏塑胶原料有限公司 |
| 价格 | .00/KG |
| 规格参数 | 生产厂商:美国阿莫科 牌号:AT-1002 HS |
| 公司地址 | 东莞市樟木头镇百果洞百顺小区三巷5号一楼（注册地址） |
| 联系电话 | 076989977070 18200646066 |

产品详情

PPA AT-1002 HS阿莫科--Amodel AT-1002 HS is a neat, toughened, heat stabilized polyphthalamide (PPA) resin that offers superior retention of properties after humid thermal aging; high impact at low temperature and better mechanical properties than many unreinforced thermoplastic polyester and nylon resins. This material was specifically designed for automotive electrical/electronic applications such as connectors, sockets and sensors. Natural: AT-1002 HS NT

PPA American Amoco - PPA Plastic Materials Introduction:PPA Dutch Physical Properties PPA American Amoco Physical Properties PPA Swiss EMS Physical PropertiesPPA Amoco AF-4122NL 22% glass fiber reinforced, high optical reflectivity more than 90%.PPA Amoco AF-1130VO 33% glass fiber reinforced, high temperature resistance 300 C, good toughness, flame retardant UL94V0PPA Amoco AS-1133HS 33% Glass Fiber Reinforced, Good Toughness, Flame Retardant UL94HBPPA AF-4133V0 33% glass fiber reinforced, hot deformation temperature 300 C, good processability, flame retardant UL94V0PPA AF-6133V0 glass fiber reinforced 33%, suitable for infrared irradiation and humid environmentPPA A-1006 has good impact resistance, suitable for pressure-bearing tubular joints, taps, etc.PPA AS-1566HS 65% Mineral Glass Fiber Reinforced, High Temperature, High Bending Strength, Hardness, Colourable
