## 产品详情

拜耳水性固化剂Imprafix 2794 XP源禾拜耳科思创缘禾水性聚氨酯供应提供厂家价格

Type Reactive, blocked aliphatic polyisocyanate

Form supplied approx. 45 %Uses Imprafix 2794 XP is crosslinker with improved reactivity

and thermostability (yellowing). It is available in a

cosolvent-free supply form, using for textile coating.

In combination with Bayhydrol polyols Imprafix 2794 XP

can be used for the formulation of water-reducible,

lightfast one-component polyurethane baking coatings and

as an additive in waterborne baking systems to improve

flexibility, impact strength and adhesion.
