

# AGCL-675 SILVER/SILVER INK -氯化银油

产品名称	AGCL-675 SILVER/SILVER INK -氯化银油
公司名称	广州市银标贸易有限公司
价格	.00/个
规格参数	
公司地址	广州市番禺区钟村镇钟荣路1号致业科技中心A栋3楼
联系电话	020-23830403 13922125860

## 产品详情

AGCL-675 SILVER/SILVER CHLORIDE INK

### DESCRIPTION

Fine particle, electrically conductive ink for screen printing

Can be easily blended with other silver conductive inks in order to achieve intermediate resistance values

Extremely tough, scuff resistant and has excellent adhesion to polyester, polyimide and other plastic substrates, with outstanding crease resistance when used on these substrates

Dries to a smooth surface finish in order to optimize surface area contact to enhance electrode interaction

Designed to dry quickly after printing

Sensitive material - Do not expose to light for long periods and do not allow material to contact metal.

Compatible with our UV curable dielectrics, conductive epoxy adhesives, UV curable component encapsulants and conformal coatings
