

DUPONT ME902 , 杜邦ME902

产品名称	DUPONT ME902 , 杜邦ME902
公司名称	广州市银标贸易有限公司
价格	.00/个
规格参数	
公司地址	广州市番禺区钟村镇钟荣路1号致业科技中心A栋3楼
联系电话	020-23830403 13922125860

产品详情

[DUPONT ME902](#)

PRODUCT DESCRIPTION DuPont ME902 is a part of the DuPont suite of materials developed for In-Mold Electronic applications. ME902 is an electrically conductive adhesive system for use in stencil-printing and syringe-dispensing applications. Its unique formulation provides good adhesion between SMD components and DuPont silver conductive pastes after heat curing. DuPont ME902 maintains some flexibility after drying, which enables handling & thermoforming of IME circuits on thin substrates. It maintains its properties after over-molding.

PRODUCT BENEFITS One part electrically conductive adhesive Good adhesion with flexibility for IME applications Excellent performance after thermoforming & over-molding Apply via stencil-printing or syringe-dispensing

PROCESSING Substrates DuPont silver pastes on polycarbonate or surface-treated polyester Application Equipment Compatibility* EFD Fluid Dispensing Systems, bench-top or robotic Stencil-printing Screen-printing (thinning is required) *Additional information in ME902 Process Guide
