

Triazinetrissaminohexanoic Acid

产品名称	Triazinetrissaminohexanoic Acid
公司名称	上海米林化学有限公司
价格	3.50/KG
规格参数	
公司地址	上海市闵行区顾戴路2959号中展大厦702室
联系电话	86-021-64841380 18516022871

产品详情

Triazinetrissaminohexanoic Acid

Triazinetrissaminohexanoic acid is our main product, and it always be available in the warehouses under 8MT.

Free samples triazinetrissaminohexanoic acid can be offered for your evaluation, pls freely contact us.

Triazinetrissaminohexanoic acid is the chemical material mainly used as the corrosion inhibitor additive in the metalworking fluid.

Product description:

Item name: Triazinetrissaminohexanoic Acid

SYNONYMS: 2,4,6-Tri-(6-aminocaproic acid)-1,3,5-triazine.

Other name: 6,6',6''-(1,3,5-Triazine-2,4,6-triyltriimino)trihexanoic acid; tribasic acid; Corrosion Inhibitor Tribasic Acid; Tribasic Carboxylic Acid; 6,6',6''-(1,3,5-triazine-2,4,6-triyltr; IRGACOR L 190; Corrosion inhibitor ABC 730; belcor 590.

CAS No.: 80584-91-4

EINECS: 279-505-5

Formula: C₂₁H₃₆N₆O₆

Appearance: White to beige Solid particles or powder.

Packing: 25kg/bag or customized.

TDS, MSDS: Available.

Triazinetrissaminohexanoic acid application:

*All types of water based systems;

*Metal working fluids(semi-synthetic and synthetic);

*Water based rust preventive;

* water based hydraulic fluids;

*Engine coolants(Na salt)

Model No	CP-50	CP-65	CP-85
Solid content	50%	65%	85%
Water content	35%	15%
