

# POM HP90X通用级

产品名称	POM HP90X通用级
公司名称	东莞市樟木头常虹塑胶原料经营部
价格	.00/个
规格参数	品牌:日本宝理 型号:HP90X
公司地址	樟木头镇塑胶市场
联系电话	13415876611

## 产品详情

POM HP90X，通用级POM 日本宝理

POM的电绝缘性较好，几乎不受温度和湿度的影响；介电常数和介电损耗在很宽的温度、湿度和频率范围内变化很小；耐电弧性极好，并可在高温下保持。POM的介电强度与厚度有关，厚度0.127mm时为82.7 kV/mm，厚度为1.88mm时为23.6kV/mm。日本宝理POM Duracon系列型号介绍Duracon AW-01 Lubricated Duracon AW-02 High Viscosity; Low Friction Duracon AW-09 High Viscosity; Low Friction Duracon CH-10 Electrically Conductive; Good Wear Resistance Duracon CH-15 Electrically Conductive; Good Wear Resistance Duracon CH-20 Electrically Conductive; Good Wear Resistance Duracon CP15X Good Creep Resistance Duracon EB-08 Antistatic; Electrically Conductive Duracon EB-10 Antistatic; Electrically Conductive Duracon ES-5 Antistatic; Electrically Conductive Duracon EW-02 Antistatic; Electrically Conductive Duracon GB-25 Low Warpage Duracon GH-20 High Rigidity; High Strength Duracon GH-25 High Rigidity; High Strength Duracon GM-20 Low Warpage Duracon HP25X High Rigidity; High Viscosity Duracon HP90X High Rigidity Duracon JW-03 Low Flow; Lubricated Duracon KT-20 Good Wear Resistance; High Rigidity Duracon LU-01 Good UV Resistance; Good Weather Resistance; Low Gloss Duracon LU-02 Good UV Resistance; Good Weather Resistance; Low Gloss Duracon M140 Fatigue Resistant; Good Duracon M140-44 High Flow Duracon M140S High Flow
