地埋式污水处理设备优点：

地埋式污水处理工艺有多种，在出水达标的前提下，最突出的优点有：

- 1.设备埋于地表下，上面可以进行绿化，环境美观。
- 2.整个设备一般不需要专人管理。
- 3.可以减少占地面积，设备上方可修建停车场等，无需建厂房等设施。
- 4.对周围环境无影响、污泥产生量少、噪音小于二类地区的标准。
- 5.操作简便、工艺新、效果好、使用寿命长。
- 6.设备可按标准布置，也可随地形需要特殊布置。

设备应用：

- 1.生活小区、别墅、写字楼
- 2.宾馆、食堂、洗浴中心
- 3.中小型工厂

- 4.医院及中小型医疗机构
- 5.车站、机场、码头、商业街区
- 6.公园、名胜古迹等旅游风景区
- 7.学校、B队、机关单位
- 8.其他对场地、环境要求较高场所。

Environmental protection cafes gather in Chengdu next week to discuss the new development of environmental protection industry

At present, China is facing the dual task of steady growth and restructuring. Focusing on the development of energy-saving and environmental protection industry is conducive to improving the living environment of residents, breaking the constraints of resources and environment, and releasing consumption potential. At the same time, it is of great significance to stimulate investment and consumption and form a new economic growth point. Xu Yixin, deputy director of Sichuan Development and Reform Commission, said recently that the output value of energy-saving and environmental protection industry in Sichuan Province is only one fourth of that in Jiangsu Province, about one third of that in Zhejiang and Shandong Province. The problems of small scale of industry, small scale of enterprises and low concentration of industries have affected the development and strengthening of the industry. In order to improve the quality and efficiency of Sichuan's environmental protection industry, with the support of Chengdu Expo Bureau and Chengdu Eco-environment Bureau, the largest environmental protection exhibition in the world, the West China sub-exhibition of Munich IFAT, the Chengdu Expo of China and the "China Environmental Industry Summit Forum

2019" sponsored by the Environmental Chamber of Commerce of the National Federation of Industry and Commerce, have settled in Chengdu. The two major environmental protection industries D-cusp event will be held in Chengdu West China Expo City from June 27 to 29 next week.

According to the organizers, the two major environmental protection industry events attracted international environmental giants such as Veolia and Suez, such as NCC, Schuang, Chengdu Environmental Group, Gezhouba, Datang Environment, China Water Investment, Beipai Group and other state-owned enterprises, Botian Environment, Sander Environment, Yingfeng Environment, Environmental Energy Technology, Jingjin Environmental Protection, Xianhe Ring. Bao, Zhongjin Environment, Jinmei Science and Technology, Jiuwu Technologies and other listed environmental protection companies come to Chengdu to talk about environmental protection industry and help the new development of environmental protection in the west.
