

无尘车间-gmp无尘车间-武汉10万级无尘车间工程公司

产品名称	无尘车间-gmp无尘车间- 武汉10万级无尘车间工程公司
公司名称	武汉得创净化设备有限公司
价格	.00/个
规格参数	
公司地址	湖北省武汉市江岸区发展大道1168号力腾乐荟对 面
联系电话	15927393984 15927393984

产品详情

小易为你介绍一下什么是GMP标准与GMP车间。

GMP标准是一套适用于制

药、食品等行业的强制性标准，要求净化工程

企业从原料、人员、设施设备、生产过程、包装运输、质量控制等方面按国家有关法规达到卫生质量要求，形成一套可操作的作业规范帮助企业改善企业卫生环境，及时发现生产过程中存在的问题，加以改善。简要说，GMP要求生产企业应具备良好的生产设备，合理的生产过程，完善的质量管理和严格的检测系统，确保最终产品的质量符合法规要求。

美观、车刚性強。化圆飛牆角、頂板、材窗框等一般采用專用氧化鋁型材製造，其特点为

GMP车间的洁净度级别的不同分别适用不同的净化设施及设备的配置。按产品特点、工艺要求

选择净化级别。在GMP车间净化系统运行期间，定期进行全面的消毒。

要进行消毒灭菌，可采用干热灭菌、湿热灭菌、辐射灭菌、气体灭菌、消毒剂消毒

英文：

Xiaoyi will introduce you to GMP standard and GMP workshop.

GMP standard is a set of mandatory standards applicable to pharmaceutical, food and other industries. It requires purifying engineering enterprises to meet the requirements of hygienic quality in terms of raw materials, personnel, facilities and equipment, production process, packaging and transportation, quality control and other aspects in accordance with relevant national regulations, and to form a set of operational norms to help enterprises improve enterprise hygiene. Environment, timely detection of problems in the production process, to improve. Briefly speaking, GMP requires enterprises to have good production equipment, reasonable production process, perfect quality management and strict inspection system to ensure that the quality of final products meets the requirements of regulations.

In GMP workshop, the wall and roof of purification workshop are usually made of 50 mm thick sandwich color steel plate, which is characterized by beautiful appearance and strong rigidity. Arc corner, doors, window frames, etc. are generally made of special alumina profiles.

In order to prevent cross-contamination in GMP workshop, tools for cleaning and purifying workshop facilities should be specially designed according to product characteristics, process requirements and air cleanliness level, and garbage should be put into dustproof bags and taken out.
