

华为UPS2000-G-3KRTS机架式2400W实时报价

产品名称	华为UPS2000-G-3KRTS机架式2400W实时报价
公司名称	山东贺鸣盛世电力科技有限公司
价格	.00/件
规格参数	品牌:华为 型号:3KRTS 产地:中国
公司地址	山东省济南市历城区辛祝路17号523-18
联系电话	15169793969

产品详情

华为UPS小型机房解决方案华为UPS2000-A-1KTTL,华为UPS华为UPS2000-A-1KTTL

In recent years, UPS power supply system plays an increasingly important role in the IT industry. When network equipment is powered off normally, the damage to its hardware equipment is very great, and important documents will be lost. UPS power supply is a very necessary power protection device, which can provide normal power supply to your equipment during sudden power failure and 0 switching time, effectively prevent voltage instability and sudden power failure.

1. HUAWEI UPS uninterruptible power supply
2000-A-1K华为UPS2000-A-1KTTL,华为UPS华为UPS2000-A-1KTTL

Its rated 800W design can meet the needs of power outage in computer room. The blackening style design is adopted as a whole, which can shield the electromagnetic radiation of power supply to a certain extent, provide normal power supply for equipment at 0 switching time, prevent sudden power outage and voltage instability, etc. Power consumption situation, LCD display screen, all parameters are clear at a glance, easy to operate and household office. Game electronic business, computer servers can be used to protect data security and device security.

2. HUAWEI UPS uninterruptible power supply 2000-A-3K

UPS power supply scheme not only meets the requirement of power supply for equipment in computer room, but also realizes the continuous parallel expansion or redundant backup of UPS system and the on-demand expansion of later equipment. It also realizes the high efficiency and energy saving of UPS input. It has high efficiency, low calorific value, low running loss, and can greatly improve the utilization rate of electric energy and realize green. Energy saving. The standby time of the single computer is about 120 minutes, and the liquid crystal display is easy to operate.
