

JSW TPH Line

产品名称	JSW TPH Line
公司名称	北京佳盛伟科技有限公司
价格	288.48/卷
规格参数	品牌:JSW
公司地址	北京市朝阳区慈云寺1号院3号楼1层、2层(八里庄孵化器3-0351号)
联系电话	18510808500

产品详情

[TPH Line](#) 's latest solution professionally solves the filming process, cutting the film with a blade, easily causing damage to the car surface paint, affecting the aesthetic problems. [DONGGUAN TAIMAO TECHNOLOGY MATERIAL CO.,LTD](#) JSW can provide a complete set of [TPH Line](#) cutting solutions to help customers achieve ease Invisible car clothing, with the rapid development of [TPH Line](#) cutting technology, in recent years, the filming process has made many significant progress. A number of tests have been carried out so far, and quality problems have not been discovered. Some special cases are also the first in the world. [TPH Line](#) is widely used and has high construction efficiency, making it ideal for car beauty shops. The process is also simple: cleaning the surface of the car – attaching the [TPH Line](#) to the design route – attaching the invisible car that you like – pulling out the string in the tape – tearing off the [TPH Line](#) tape left behind – the styling instantly appears in front of you

Consumers will tend to choose professional design line with excellent quality, reasonable quality and excellent performance, which gives JSW the opportunity to seize the design line. As the company's declaration: "we firmly believe that brand value is the benchmark of business decision-making and the core of JSW people's dedicated maintenance of Dongguan Taimao Electronic Materials Co., Ltd. We are never afraid of the risk of change. We should take a forward-looking pattern to create customer life-long value with innovation that changes with demand. " It can be predicted that the innovation and brand growth of [TPH Line](#) will never stop. It is steadily moving towards the goal of "becoming China's design line with the first brand reputation and market share in the Chinese market, and the top ten adhesive products company in the global sales". The success or failure of the strategic selection and implementation of [TPH Line](#) is of great significance to the survival and development of JSW of Dongguan Taimao Electronic Materials Co., Ltd.

[TPH Line](#) cutting principle: it is a kind of technology using fiber ribbon in the adhesive tape, using low fluid adhesive tape as power source. On the basis of polymer fluid adhesive tape, the thin wire produced by [TPH Line](#) hard working force promotes the technology of penetrating color changing film. Its main components include fiber thread, cold gel belt and adhesive with polymer fluid glue. Through the analysis of cutting possibility, [TPH Line](#) is cut according to your favorite line rules within a certain range. As well as horizontal stability can be used as market leading products. And the cutting force indirectly uses the function of the fiber line, which can be said to be infinite. Therefore, using [TPH Line](#) in the film may be the most advanced cutting technology of automobile color changing film.
