the goods are sold in a price, declined to bargain,occasionally there will be a shortage of goods because of the situation, please buyers in the purchase of goods and dispensers before the first contact determine whether goods1. need to return if quality problems, within 24 hours contact us return, as we verify, the returns generated by the fees from our commitment to color reasons, and imagine different, and other non- quality reasons fall issue of product quality, the expense for such reasons we do not accept returns, please understanding.2. total consumption reached 200 yuan more friends will receive sell a senior member card can click on "my membership cards," view and enjoy 9.5% discount, beautifully presented a small gift, the total consumption reached 500 yuan over friends will be given to sell "vip member" of a enjoy 9% discount for access to attractive prizes and a gift, enjoy sell vip member services;3. virtual

network transactions need is mutual trust, as a result of the transaction process and the reasons for the logistics company failed to lead to your receipt of the goods on time, we wish to express my sincere apologies, but also request your understanding, we will to help you resolve as quickly as possible, we believe that as long as the communication to understand each other, anything can be solved4. result of shooting by the weather, light and so on, may be in kind - with some color photographs, such issues do not belong product quality problems, will not be acceptable returns, please consider carefully before buying, then determine whether to buy5. please check carefully before items signed for integrity and check the number of items, after receipt dispensers not assume any responsibility for the spot in case of any problems please contact us, post offices parcel receipt may be required only after unpacking, please receipt in the spot after the inspection, such as contact us spot problems and a written confirmation to the post office

## 活泼时尚-纽曼黄金甲nm-ms002

传统音箱都是采用扬声器来发出声音，如今出现了不用扬声器就可以发声的新技术。这种技术摆脱了传统理念，通过共振，把整个介质例如桌面，作为了它的发声单元振膜部分，虽然这种技术3年之前就已经出现了，却一直没有流行起来，而现在，越来越多的厂商开始生产这种新颖的产品了，说明现在的市场也是需要这种新鲜的血液。

国内著名厂商纽曼，旗下的移动存储、mp3、mp4、gps等产品在市场中都有一定的影响力。纽曼在巩固其优势的同时，又开始研发新的产品-共振音箱。

这款产品的包装比较精美。包装采用了鲜艳的红色边角及纽曼的logo加白色的底面，精美的盒子上更是印上了3款产品，由此可见，纽曼的共振音箱产品还是比较丰富的，不过接下来要介绍的是最左边的那款。
