key features include:

smart technology designed to help reduce unwanted or nuisance alarms.

single button test/silence eliminates confusion. depending on what mode the alarm is in, pushing the button provides different functions such as testing the alarm, silencing the alarm, re-testing the alarm when in silence and clearing the latching feature.

latching alarm indicator easily identifies initiating alarm even after the alarm condition has subsided. perfect mount system includes a basketless base for easy installation and a new mounting bracket that keeps the alarm secure over a wide rotation range to allow for perfect alignment.

easy installation/maintenance features include two screws for easy access to install smoke alarm on the ceiling.

improved uv resistance keeps the alarm from discoloring over time.
