轮式洗砂机Sand Washer Machine With Wheel Type

轮式洗砂机是我公司经过长期的客户实践,反馈,生产的高xiao轮斗式洗砂机,传动部分与水,砂分离,故障率大大低于其它洗砂机.其新颖的密封结构,可靠的传动装置,确保了清洗脱水的效果,具有结构合理,处理量大,功率耗小等特点,主要用于清洗分离砂石中的石粉泥土,配合制砂机使用的高xiao洗砂设备是砂石行业理想洗砂设备。

washing machine's biggest characteristic is that the transmission part is separated from water and sand,so failure rate is much lower than other sand washer,and the novel sealing structure and reliable transmission could be well used to ensure the cleaning and dehydration effect.With features of reasonable structure,large capacity,low power consumption,it is a deserved ideal industrial sand washing equipment. As this sand washer is very good for separating and cleaning stone powder and soil in the artificial sand,it is often associated with sand making machine for construction sand crushing and washing.
