

# 华易达ZS-8不锈钢手动盐水注射机

产品名称	华易达ZS-8不锈钢手动盐水注射机
公司名称	诸城华易达机械有限公司
价格	.00/个
规格参数	种类:盐水注射机 品牌:华易达 型号:ZS-8
公司地址	中国 山东 诸城市 山东省潍坊诸城老皇华路
联系电话	86 0536 6069176 15064681588

## 产品详情

种类	盐水注射机	品牌	华易达
型号	ZS-8	电压	380 ( V )
功率	3 ( kw )	净重	650 ( kg )
包装	木	外形尺寸	1730-1160-1640 ( mm )
适用范围	肉制品加工厂设备、冷冻 食品厂设备、中餐店设备 、其他	营销	特价

本机采用优质不锈钢材料，选用不锈钢泵，设计合理，维护容易。为使注射机和小肉块更加分离彻底，该设备设计了四层不同的过滤功能，能及时把小肉块排出注射液以外，有效地保证了注射针孔不被堵塞。传动链条可拆卸，清洗方便，针头拆装容易，便于更换。

本机注射压力可根据产品不同在0.1-0.8mpa之间调整，压力表显示注射压力直观、方便。

本机采用变频型调速器，链条步进距离和步进速度及针头注射速度同步可调。

本机设有自动保护针头装置，注射针碰到硬物时可随之抬起，免受损坏。

本设备除用于肉类加工外，通过更换针头还成功应用于鱼类、海参、禽类等产品的注射加工。

this mechine uses the high quality stainless steel material, selects the stainless steel pump, the rational design, maintains easily. in order to cause the injection machine and the small flesh lump even more separates thoroughly, this equipment design four the different filtration function, can discharge promptly the small flesh lump outside the inoculation fluid, has the effect had guaranteed the injection pinhole is not stopped up. the driving chain is dismantable, clean convenient, needle disassembling is easy, to be advantageous for the replacement. this machine injection pressure may act according to the product to adjust differently between 0.1-0.8mpa, the pressure gauge demonstration injection pressure is direct-viewing, is convenient. this machine uses the frequency conversion velometer, has the injection stride width adjustable function. this machine is equipped with the automatic protection needle installment, the hypodermic needle bumps into when the hard object may along with it lifts, is exempt from the damage. this equipment besides uses in the meats processing, through replaces the needle also to succeed applies in product and so on fish, trepang, feather injection processings
