the keycontrol 49 xt is a very stylish 49-key aluminium case keyboard, perfect for usage live on stage and in studios. no extra power supply and no special drivers are needed when connected to your pc or macintosh. this makes keycontrol 49 xt a perfect addition for every home studio and many other setups.

the versatile midi controller can be used immediately after it has been connected to a sound device or to a computer. the 4 endless encoders, the pitch bend wheel and the modulation fader allow you to control your software synthesizers directly from the keyboard. of course all controllers work in real time. if you are looking for a really stylish and yet affordable controller keyboard, keycontrol 49 xt is the perfect solution for you.

there is more, keycontrol 49 xt is shipped together with the full version of

cubase le 5 from steinberg - this makes the the bundle a truly incredible value!

if you are looking for a smaller mobile version, our keycontrol 25 xt is also available.

keycontrol 49 xt will be shipping in summer 2010.
