

Nitto 224PR-M 日东电工PVC保护膜

产品名称	Nitto 224PR-M 日东电工PVC保护膜
公司名称	厦门良厦贸易有限公司
价格	.00/个
规格参数	品牌:Nitto 224PR- 型号:224PR-M
公司地址	中国（福建）自由贸易试验区厦门片区中埔社10 190号（注册地址）
联系电话	0592-6013840 15396145919

产品详情

SPV 224PRM is a Surface Protection Tape with unique UV-resistance

This product consists of a blue or clear transparent PVC film coated with a pressure sensitive acrylic-based adhesive. For easy unwind, the backing of the PVC-film is coated with a special silicone release.

Features

excellent deformation behaviour

lubricating behaviour

high adhesion level

good weatherability

easy unwind

recyclable

REACH complaint, phthalate free

Structure

Pressure sensitive acrylic-based adhesive

Unique blue or clear transparent polyvinylchloride film

Silicone release coating

Properties	Adhesive type	Acrylic-based
	Film type	Unique polyvinylchloride film
	Total thickness	0.075 mm / 2.95 mil
	Adhesion to BA steel	0.95 N/20 mm / 4.3 oz/in
	Tensile strength MD	50 N/20 mm / 228 oz/in
	Elongation MD	240%
	Weatherability to BA steel	750 h
	Color	Blue transparent or clear transparent

Applications

SPV 224PRM is suitable for the protection of stainless steel, glass and aluminium during processing, transport and storage. It is an ideal product to be used on metal surfaces during severe mechanical processes such as deep drawing, profiling or bending. The unique composition of the product makes it possible to protect the substrate through the complete process from deep drawing (single & multi-step) till the end-user.
