

PBT台湾长春4830

产品名称	PBT台湾长春4830
公司名称	东莞市华韵塑胶原料有限公司
价格	20.00/kg
规格参数	PBT阻燃:PBT防火V0 PBT黑色:PBT高光泽 PBT长春:PBT总代理商
公司地址	东莞市樟木头镇奥园塑金国际8栋214
联系电话	0769-87600377 13556776933

产品详情

PBT台湾长春4830

台湾长春PBT 6730 含30%玻纤增强 防火UL94V0阻燃

台湾长春PBT 5130 含30%玻纤 抗溶解

台湾长春PBT 5630 含30%玻纤增强 防火UL94V阻燃 环保无卤

台湾长春PBT 3010 含10%玻纤增强 低粘度

台湾长春PBT 5615 含15%玻纤增强 防火UL94V阻燃 环保无卤

台湾长春PBT 4830 含30%玻纤增强 防火UL94V阻燃

台湾长春PBT 4815 含15%玻纤增强 防火UL94V阻燃

台湾长春PBT 4820 含20%玻纤增强

台湾长春PBT 4130 含30%玻纤增强 防火UL94V阻燃

台湾长春PBT 4120 含20%玻纤增强 防火UL94V阻燃

台湾长春PBT 4115 含15%玻纤增强 防火UL94V阻燃

台湾长春PBT 3030 含30%玻纤增强

台湾长春PBT 3020 含有玻纤20% 中粘度

台湾长春PBT 3015 含有玻纤15% 粘度较低

Dongguan Huayun Plastic Materials Co. , Ltd. is a global material supplier focusing on the application value of engineering plastics. With the business philosophy of "creating value for customers" , we are committed to the research, development and promotion of Engineering Plastics Technology, in order to assist the plastic products manufacturing enterprises to upgrade the industrial level we always uphold, customer first, Huayun unremitting efforts, and customer support to help, we continue to find market practice, professional concept of Integrity Services, quality and development, to the credibility of survival, has won the trust of our customers. Due to the development of related industries in China, the demand for PBT resin is increasing year by year. Since 2002, the production capacity of Japanese and Taiwanese PBT manufacturers has increased greatly, and the export volume has increased greatly in the past three years. Now it accounts for about 90% of China's large imports of PBT. Affected by international finance and appreciation, China imported 50,368 tons of polybutylene terephthalate from January to June 2009, down 35.7% from the same period in 2008, and the import amount was us \$117.81 million, down 40.4% from the same period in 2008. With the rapid development of China's national economy, especially the downstream electronic industry and automobile industry, the demand for PBT has increased rapidly. In the case of anti-dumping by the state against imported products, with the automobile market, which is quite different from the depression caused by finance, booming, encouraging the car consumption of the various good policies and activities such as the car to the countryside has played a helping hand. Poly (butylene terephthalate) , also known as poly (tetramethyl terephthalate) . English name: Polybutyleneterephthalate. PBT, or PMT for short, is a polycondensation of parabens and 1,4-Butanediol acid. It can be prepared by transesterification or direct aliphatic polycondensation. The development trend in the future is direct esterification. PBT is known as thermoplastic polyester together with PET. Resistant to stress cracking, excellent wear resistance, chemical corrosion resistance, high low temperature impact strength, easy processing and good painting, mainly used in high-grade car bumper, car floor, panels and motorcycle fender. In the past few years, the world's major PBT production companies have been concentrated in the United States, Western Europe, Japan and Korea. According to the Statistic Analysis of Kline & Co Company, Ge Plastics Company is the world's PBT producer, with a production capacity of 140,000 tons per year. In the period around 2004, the company has accounted for 24.1% of the world's total production capacity. At that time, Ticona and dupont were the world's second and third largest producers of PBT, with a production capacity of 80,000 and 75,000 tons per year respectively, representing 13.8 per cent and 12.0 per cent of the world's total production capacity, respectively. BASF, Japan's teirenpolyplastics and Buyer were next.
