

## 回收钼铼树脂，吸附钼树脂，回收铼树脂

产品名称	回收钼铼树脂，吸附钼树脂，回收铼树脂
公司名称	天津中宜汇富环保工程有限公司
价格	1.00/1
规格参数	品牌:杜笙 型号:RCX-5143 产地:印度
公司地址	天津市武清区大黄堡乡后蒲棒村综合大楼408-2 (集中办公区)
联系电话	13972680375

### 产品详情

## 回收铼树脂RCX-5143

Tulsime RCX-5143

MACRO POROUS WEAK BASE ANION RESIN

Tulsime RCX-5143 is an extremely durable macro porous weak base anion exchange resin, characterized by complex amine groups attached to a styrene divinylbenzene copolymer matrix. Supplied in free base form. Functionality of this resin is suitable for removing heavy metal like Molybdenum and Rhenium in acidic pH from process stream.

Tulsime RCX-5143 yields exceptionally stable operating capacity on caustic soda regeneration.

TYPICAL CHARACTERISTICS : Tulsimer RCX-5143

Macro porous weak base anion ion exchange resin	Type
Cross linked Polystyrene	Matrix structure
Complex Amine	Functional group
Moist Powder form	Physical form
Free Base	Ionic form
0.3 to 1.2 mm	Particle size (minm. 95%)
40 ± 5 %	Moisture contents (approx)
80 ° C	Thermal stability
Insoluble in all common solvents	Solubility
1.2 meq/gm	Total exchange capacity
