

# 优品质轻钢别墅设备厂家直销19年精工制造运行稳定好用

产品名称	优品质轻钢别墅设备厂家直销19年精工制造运行稳定好用
公司名称	佛山市中禾冷弯机电设备有限公司
价格	385000.00/套
规格参数	品牌:泰智丰 型号:89*41 产地:广东佛山
公司地址	佛山市南海大沥太平冲表西工业区8号
联系电话	0757-85703327 18029277885

## 产品详情

智能化轻钢别墅设备，89轻钢别墅龙骨设备生产线 主要用于轻钢结构房屋、轻钢别墅、移动房屋、安置房、生态旅游别墅、新农村自建房等，高智能化自动化高效流水线生产，房屋外形美观，精准快速拼装！也可以根据客户要求设计制造各种智能化、自动化新型建筑型钢生产线，装饰型钢生产线，龙骨生产线，钢结构设备、冲孔门框生产线、环保型钢生产线。

High-precision intelligent light steel villa equipment is mainly used for light steel structure houses, light steel villas, mobile houses, resettlement houses, eco-tourism villas, new rural self built houses, etc. high intelligent automatic efficient assembly line production, beautiful appearance of houses, accurate and fast assembly! We can also design and manufacture all kinds of intelligent and automatic new building steel production lines, decorative steel production lines, keel production lines, steel structure equipment, punching door frame production lines and environmental protection steel production lines according to the requirements of customers.

智能化轻钢别墅设备，89轻钢别墅龙骨设备生产线性能特点

智能化：轻钢别墅3D打印机，操作简单，省人工！

Intelligent: light steel villa 3D printer, simple operation, labor saving!

1. 采用CAD/CAM一体化技术,快速智能化读取进口专业轻钢别墅建筑绘图软件别墅龙骨数据,实现设备的智能化高度自动化生产;实时监控运行生产过程,能够清晰显示生产过程及进度,减少生产损耗及设备故障报警。

Adopt CAD / CAM integration technology, quickly and intelligently read the villa keel data of imported professional light steel villa building drawing software, realize intelligent and highly automatic production of equipment; monitor the operation and production process in real time, clearly display the production process and progress, reduce production loss and equipment failure alarm.

2. 配备豪华版可旋转式17寸工业电脑触摸屏,并配多功能遥控器,操作简单、方便。

Equipped with a luxury version of the rotatable 17 inch industrial computer touch screen, and equipped with a multi-functional remote control. The operation is simple and convenient.

轻钢别墅设备生产线,轻钢龙骨设备,轻钢别墅设备:生产线工艺流程:液压自动开卷、校平机、自动高速冲孔、高精度高速成型、自动喷码、自动切断自动化流水线生产,可批量/单件生产模式选择,运行稳定,高效自动化生产。

Process flow of production line: hydraulic automatic decoiler, leveling machine, automatic high-speed punching, high-precision high-speed rollforming, automatic code spraying, automatic cut-off automatic production line, batch / single production mode for selection, stable operation, high-efficiency automatic production.
