

热稳定性PA66,直销66R美国首诺PA66原包进口料

产品名称	热稳定性PA66,直销66R美国首诺PA66原包进口料
公司名称	深圳市宝安区沙井优创塑胶原料经营部
价格	.00/个
规格参数	品牌:美国首诺 型号:66R 特性:热稳定性PA66
公司地址	宝安区沙井街道南环路573号
联系电话	13728183912

产品详情

热稳定性PA66,直销66R美国首诺PA66原包进口料

66R,66R美国首诺,PA66 66R,热稳定性PA66

Vydyne 66R-Heat stabilized for added resistance to elevated temperature use over extended periods. The high viscosity of Vydyne 66R allows for a very stable and easily controlled melt extrudate. Vydyne 66R contains a slip agent to provide improved machine feed and improved lubricity in extruded applications. Typical Applications/End Uses Vydyne 66R can be fabricated into film, monofilament, bristle, tubing, rod, profiles, and sheet for use in automotive and industrial applications. It is particularly useful in blown film applications.

PA66用作机械附件，如齿轮、润滑轴承；代替有色金属材料做机器外壳，汽车发动机叶片等。也可用于制合成纤维。一般用己二酸和己二胺制成尼龙-66盐后缩聚而得[1]
