- 4)blade guides automatically hold knife at the ideal angle
- 5)1-stage system sharpens, then hones blades

electric sharpener

model no : mes-503

230v-50hz-20w

attention!

please read instructions before  
use !

keep instructions in a place!

only to be used indoors

keep away from children. this  
product is not a toy.

stainless and ordinary steel  
kitchen knives and scissors used  
at home can be simply  
sharpened. since the sharpening  
finish on a fish-slicing  
knife, dressmaking scissors, barber  
scissors, etc., is rough and a finish  
sharpening is necessitated, please  
refrain from sharpening these  
items

important safety information

do not press hard against the  
concave section when  
sharpening. there are times when  
you may injure your hand due to  
excessive pressing.

do not sharpen by applying water  
or oil. the grindstone will be  
subjected to loading and  
sharpening cannot be made.

provide sufficient care in  
handling and do absolutely no  
allow children its usage.

inspect product regularly for signs  
of damage

do not use a damaged product

how to use

be sure to completely wipe off water,oil and fouling on cutleries.

refrain from interrupting cutlery sharpening or changing the sharpening pressure as it may lead to causing blade unevenness.

hold the main body case with your hand and turn on the red switch with your thumb,the grindstone turns when the push-botton switch is depressed and stops when released.
