2020年展会取消说明：

## HIGH END 2020 CANCELLED DUE TO CORONAVIRUS

February 28, 2020

The HIGH END 2020 trade show, planned for May 14 to 17, has been cancelled due to the current worsening trend with respect to the spread of the novel coronavirus. This decision was reached by the HIGH END SOCIETY Service GmbH upon consideration of all criteria in close cooperation with the Board of the HIGH END SOCIETY e.V.

Given that in addition to the countries affected in Asia, infections in Italy have rapidly increased within a few days, it is unclear how the virus will continue to spread in Europe. As organisers of an international trade show, we consider it our responsibility, on the one hand, to safeguard the health of all stakeholders, and on the other hand, to work towards averting possible economic losses of the exhibitors.

Since the rapid spread of the virus in China in mid-January, we have been weighing the possible consequences for the exhibition planned in May. The situation was reassessed each day by monitoring not only the global spread of the coronavirus but also the international trade show and exhibition scene. In addition to the special situation for Chinese exhibitors, over the past few weeks, we have increasingly received inquiries from other companies as to whether the strained situation would have an impact on the HIGH END 2020.

A total of 500 trade visitors from 40 countries had registered for the HIGH END 2020 trade show. You will be informed on the latest news concerning the cancellation. Trade visitors and end users who have already purchased a ticket for the HIGH END 2020 will naturally receive a refund.

2019展会回顾:

2019 Munich High End Show 2019年德国慕尼黑High End音响展如期于5月9 ~ 12日在德国慕尼黑M.O.C.商务部行政中心展馆Hall1、Hall2、Hall3、Hall4、Atrium3.1、Atrium4.1、Atrium4.2举办，该展会由创建于1982年的HiEnd音响协会所策划筹办，迄今已成功举办了38届，是欧洲HiEnd音响界历史

为悠久的展会，而在M.O.C.办展已经经历了十六个年头。尽管近日北半球气候普遍比往年出奇的低温，很多同业也抱怨市场不景气。但作为全球大规模的HiEnd音响展同样汇聚了来自全球的近千个参展商参展。

重点看头1：首先是帝瓦雷+Vivid Audio的组合。去年Vivid推出了新的旗舰、外置分频器的G1 Spirit。由Vivid创始人Laurence Dickie和帝瓦雷共同合作，G1 Spirit扔掉了外置分频器，由3套内置电子分频的帝瓦雷旗舰Le 1000 Pro分别驱动喇叭的低音、中音和高音单元，效果非常纯净而通透，分频器中模拟器件的损耗和参数偏差因素全部消除。重点看头2：动态惊人的Avantgarde喇叭花，今年出动了为纪念公司成立26周年而推出的限量版Trio 26全号角扬声器（才大半年时间26对Trio 26多已名花有主）。功放是喇叭花自家的XA前后级，少有地出动了4台XA-POWER后级，音源是全场音乐会。重点看头3：Estelon爱思特浓展出新限量版旗舰Extreme LE，全球仅限10对，对就在中国。重点看头4：另一个WADAX+喇叭花Trio旗舰的房间，同样的好声！与喇叭花房间不同，使用的还是普通版Trio，1对超低音号角，换了一个思路用胆前后级驱动。图2为WADAX老板Javire，WADAX的128bit mus1C芯片就是他设计的。重点看头5：Ultrasone耳机，拍些组合。耳放都用德国湖人，另外就是自家Naos小解码耳放搭配iPad提供试听。开放式的ED15和封闭式的ED8ex是闪耀的主角。

展品范围：-音箱-功放系统-公共广播设备-调音台-DJ器材-麦克风-效果器- VOD点播系统-  
音响配件及线料-其他音响设备-会议系统-电视及电台广播设备-音视频网络系统-其他音视频及传送设备
