

台湾南亚PP加纤20%

产品名称	台湾南亚PP加纤20%
公司名称	东莞市华韵塑胶原料有限公司
价格	12.00/kg
规格参数	台湾南亚:3210G4 型号:防火阻燃 厂家:黑色颗粒
公司地址	东莞市樟木头镇奥园塑金国际8栋214
联系电话	0769-87600377 13556776933

华韵塑胶原料供应 PP 台湾南亚 3317

PP injection molded products used in packaging, containers, storage boxes and large containers. At present, the turnover box is mainly produced by copolymerized PP and HDPE, with good rigidity, hardness, dimensional stability, chemical resistance. PP is used to manufacture and transport large-scale 500K9 and 1500k9 goods in foreign containers. PP blow molding products, such as bottles, boxes, cans for food, cleaning agents, shampoo, medicine and other packaging. In addition, and is also a fast-growing product, used in place of cotton, hemp and paper rope. The development level of automobile industry, one of the important indicators is the proportion of the use of plastics. There are many kinds of plastics used in automobiles, such as PE, PP, PVC, ABS, PA, PC, PET, PBT, polyurethane, etc. .
