

## PP透明防火料 PP透明阻燃料

产品名称	PP透明防火料 PP透明阻燃料
公司名称	东莞市华韵塑胶原料有限公司
价格	12.00/kg
规格参数	品牌:PP 型号:台湾南亚 产地:厂家直销
公司地址	东莞市樟木头镇奥园塑金国际8栋214
联系电话	0769-87600377 13556776933

## 产品详情

PP透明防火料 PP透明阻燃料

PP 台湾台化 K1011 K1020 K1023 K1035 K2000 K4515 K4535 K7005 K8003 K8009 K8025

PP 台湾台化 K8802 F1611 K8010 1005 S1040 T8002

PP Properties overview: 1, DENSITY PP is all synthetic resin medium density, small. PP plastic products can be added only main and auxiliary antioxidants, without the need to add ultraviolet absorbent. 2. The tensile strength and rigidity of mechanical properties of PP are good, but the impact strength is bad, especially at low temperature. In addition, if there is orientation or stress during the molding process, the impact strength will be significantly reduced. Although

the impact strength is poor, after being filled or reinforced, its mechanical properties can compete with the engineering plastics with high cost in many fields. 3, surface hardness PP surface hardness in five general purpose plastics is low, only better than Pe. When the crystallinity is higher, the hardness is also increased, but still less than PVC, PS, abs and so on. It has good electrical insulation.
