

# M22-RJ45-SA启动器Eaton - Cutler Hammer

产品名称	M22-RJ45-SA启动器Eaton - Cutler Hammer
公司名称	上海持承自动化设备有限公司
价格	3.90/个
规格参数	卡特拉汉莫:RJ45 Socket M22系列:M22-RJ45-SA 美国:IP65
公司地址	上海市金山区吕巷镇干巷荣昌路318号3幢1018室
联系电话	021-59112701 13671506557

## 产品详情

DOL启动器，3极，IEC，35-50A FLA，110V交流50赫兹，120V交流60赫兹线圈，1个，1NC辅助

Overview : Eaton RMQ-Titan M22 Series — The 22.5mm Pushbuttons M22 Series of the Global Modular Family:One family. Endless possibilities. Whether at the control desk, in suspended operator panels or in the control cabinet, RMQ-Titan M22 series is your optimal choice when it comes to control circuit devices for machine and panel building. As well as the attractive and ergonomic design, the flexibility and versatility of the range always make it the ideal solution. All button plates, indicator lights and legend plates can be provided with abrasion resistant laser inscriptions of texts and symbols as required.Eaton Global Modular pilot devices are the machine manufacturing and panel building industries ‘ number one choice. There is good reason for this, as Eaton continues to invest heavily in research and development, to ensure that its products continue to meet all the requirements involved in safe and efficient work environments. Eaton ‘ s modular system makes it possible to select the right pilot device dimensions, materials and colors for any application.RMQ-Titan M22 Series Features:Elegant commanding and signalling: RMQ-Titan pushbuttonsOperator safety: Emergency-off/emergency-stopSensing solutions: Mechanical, photoelectric, inductive and capacitive sensorsMeasuring and monitoring: ETR4 timing and EMR4 monitoring relays1 or 2-channel safety circuits, up to SIL 3 to IEC62061 or PL e to EN ISO 13849-1.Self-monitoring contact elements guarantee full operational safetyReliable indication of operating state with mechanical switch position indication in the actuating element and/or from a distance with an adjustable illuminated ringThe Global Modular System Features:Modular pilot devices with a broad variety of fronts, bezels,colors and functions available for selectionContact elements for a large number of applicationsCompact devices (Global Modular Compact-C22 and C30 with pigtail) to be used directly on machinesEmergency stop buttons designed to ensure functional safety on machines and systemsSmartWire-DT for digital device communication within the Global Modular family
