The application scope of Jingdong applet covers multiple scenarios. According to reports, "Jingdong shop shopping app" can upgrade the technology of shop loft in Jingdong app. In the future, you can join AR, 3D, panorama hall, small game and other marketing methods. This kind of playing method of marketing layer is not difficult to understand. It can provide consumers with more yuan and rich shopping experience. In addition, through the carrier of small program, to achieve a freer store design and enhance the brand attributes of businesses; even, businesses can have a clearer data portrait for their customers through the characteristics of small program data retention.

白吃猫系统商家可通过本APP上传店铺资料，申请开店，购买二维码，并将二维码张贴于店铺内。消费者扫描二维码，进行支付后，

订单自动加入到商家的订单返现排队中，等待返现。商家可在APP端自由地设置返现比例额度。订单达到返现条件后，

系统会按照此额度进行返现。此外APP还具有已到账/未到账金额统计、发票管理、银行卡绑定等功能。

白吃猫系统平台招收一个代理，代理招商家入驻到平台，每个商家都有自己专属的商家收款二维码

假如商家设定的让利比例是20%，代理返佣比例是20%，顾客在该商家的门店消费100元

白吃猫商家会直接收到80元，其中20%即20元留在平台作为消费鼓励金，这笔鼓励奖里面的20%即4元返给代理，

剩下16元进入排队返利奖金池。

第二个消费者消费100，同样的20元作为鼓励金，16元进入排队返利奖金池，等到第7个消费者消费完，排队返利奖金池就超过100元了，平台将这100元奖励给个消费者。

In the future,the intelligent hardware in the home can be controlled through JD app,which can be understood as the center of smart home.Jingdong hopes to gather home appliances of different brands through small programs,a low-cost carrier,so that users can use Jingdong app without downloading other apps after purchasing smart home products.But it's not clear whether appliance brands will buy the bill and how JD will optimize the entry of these small programs in the future.
